Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Wednesday 10 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Fog in places overnight, then largely cloudy on Thursday.

This Evening and Tonight:
Largely dry this evening but some drizzly rain is possible in the south of the region. Clear periods, especially in the north and becoming chilly with a touch of frost here. Mist and fog patches forming in places. Minimum temperature 0 deg C (32 deg F).

Thursday:
A largely cloudy day with mist and fog taking a while to lift through the morning. Most places remaining dry with the odd brighter period, although isolated showers are possible. Maximum temperature 12 deg C (54 deg F).

Outlook for Friday to Sunday:
Changeable and windy on Friday with rain or showers. Largely dry and cloudy over the weekend, with some sunshine likely in places. Staying fairly mild.
